NARASAPU VISHNUVARDHAN

Full Stack Developer Intern | Sri Venkateswara College of Engineering | Java | React | Node.js

+91 7601061983 nagarjunavishnu16@gmail.com linkedin.com/in/narasapuvishnuvardhan

Tirupati,Andhra Pradesh/India

Summary

B.Tech Computer Science and Engineering student with strong foundations in Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, and Computer Networks. Proficient in Java with hands-on experience in software development, REST APIs, database operations, testing, debugging, and full-stack application development. Strong problem-solving skills with practical exposure to software development lifecycle activities through internship and academic projects. Expected to graduate in 2027.

Work Experience

Full Stack Developer Intern May 2026 - June 2026

SmartBridge Educational Services Pvt. Ltd.

- Developed a full-stack MERN application for managing **X**+ books and **Y**+ users, processing over **Z** daily database operations with **A%** uptime.
- Engineered REST APIs to facilitate CRUD operations, enabling seamless frontend-backend communication and improving data accessibility by **X%**.
- Improved application uptime by **X%** and reduced critical errors by **Y%** through the implementation of robust error handling and database operations, leading to a **Z%** increase in user satisfaction scores.
- Contributed to the successful development, testing, and deployment of a new software module, reducing bug reports by **X%** within **Y** months post-launch and improving system uptime by **Z%** over a **A**-month period.

Education

B.Tech in Computer Science and Engineering Start Date - 2027

Sri Venkateswara College of Engineering 8.89/10

Diploma in Computer Science Oct 2021 - May 2024

B.I.T Institute of Technology, Hindupur, AP 91.12%

Secondary School of Education Start Date - 2021

Vignan Em High School, ODC, AP 99.83%

Projects

ATSense AI-Powered Resume & Job Matching Platform N/A - N/A

- Developed a full-stack application using React.js, Node.js, Express.js, REST APIs, and RAG-based processing.
- Implemented backend APIs for resume processing, job matching, and skill-gap analysis.
- Integrated vector search and local sentence-transformer embeddings for semantic resume-job matching.
- Tested and debugged API endpoints to improve application reliability and functionality.

Personal Expense Tracker N/A - N/A

- Developed a responsive expense management application using React.js, Firebase Authentication, and Cloud Firestore.
- Implemented expense tracking and real-time database operations.
- Integrated authentication and database functionality with the frontend.
- Tested application workflows and handled user-input and data-related issues.

Weather App N/A - N/A

- Built a responsive weather application using React.js and integrated the OpenWeather API using Fetch.
- Implemented dynamic weather data display with user input and API error handling.

Skills

Programming Languages

Java | C | JavaScript (ES6) | SQL

Software Development & Tools

Data Structures and Algorithms | Object-Oriented Programming | DBMS | Operating Systems | Computer Networks | TCP/IP | Problem Solving | Software Development Lifecycle (SDLC) | REST APIs | API Integration | Testing | Debugging | Database Design | Node.js | Express.js | React.js | HTML5 | CSS3 | Bootstrap | Responsive Web Design | MySQL | Cloud Firestore | Firebase Authentication | Git | GitHub | Postman | pgAdmin 4 | Vercel | Render

Certification

SQL (Intermediate)

Generative AI Literacy
